

**GOVERNMENT OF TELANGANA
DEPARTMENT OF TECHNICAL EDUCATION**

**OFFICE OF THE
COMMISSIONER OF TECHNICAL EDUCATION
TELANGANA :: HYDERABAD**

- Sub : TECHNICAL EDUCATION - Completion of Online Training Programmes by faculty offered by National Institution of Technical Teachers' Training and Research (NITTTR), Kolkata by August, 2020 for eligibility to CAS - Reg.
- Ref : Program Calendar of July-2020 Online Training Programs offered by NITTTR, Kolkata.

@@@@@

With reference to the above cited, the Principals of all Government Polytechnics under the control of this department are hereby informed that the National Institution of Technical Teachers' Training & Research (NITTTR), Kolkata is organizing Online Training Programs scheduled from 06.07.2020 to 31.07.2020.

Further, Out of 506 faculty 242 faculty have submitted information through Google forms regarding the Training Programs completed and the number of training programs yet to be completed for eligibility to CAS (Copy enclosed). All the Principals of Government Polytechnics are inform the faculty to complete the online training programs by August, 2020 so that they may be eligible for CAS by September, 2020.

In this connection, the Principals of all Govt. Polytechnics of Telangana State are hereby informed to instruct the faculty who are in short of training programmes may register online in NITTTR, Kolkata website: <http://bit.do/ICT-Application-Form> and the same copy may be sent to this office to adtrg.ts@gmail.com. The program completion certificate may be sent at the earliest to the same mail id after completion of the online course so that it may be considered for CAS in September,2020.

The receipt of the memo shall be acknowledged.

(This has the approval of the CTE, Telangana)

For COMMISSIONER

To,
The Principals of all Government Polytechnics in the State.
Copy to the Secretary, SBTET, T.S., Hyderabad.
Copy to the Director, NITTTR, Kolkata.

National Institute of Technical Teachers' Training & Research, Kolkata

List of ICT Mode STTP Platform: ZOOM communicator

Application Form Link: <http://bit.do/ICT-Application-Form>

Sl. No.	Prog. Code	Programme Title	Programme Co-ordinator	Date: From	Date: To	Duration (Week)	Target Participant / Group	Programme Objectives
1.	ICT54	Big Data Analytics	Chandan Chakraborty & Kinsuk Giri	06/07/2020	10/07/2020	1	Faculty of Engineering Disciplines, BCA, MCA etc.	On completion of the course, the participants would be able to <ul style="list-style-type: none"> • Get acquainted with an overview of Big Data and its Applications • Explore statistical methods for analysing big data • Demonstrate Machine Learning (Classification and Clustering) and Data Mining algorithms • Get an exposure on Python Programming Language • Demonstrate Data Mining with Python (Hands-on-training) • Explore R programming for Big Data Visualization & ML • Get an exposure to project based learning in this domain.
2.	ICT55	Concept Teaching in Engineering Mechanics	Jagat Jyoti Mandal , Dipankar Bose & Samiran Mandal	06/07/2020	17/07/2020	2	Faculty members of all technical institutions	
3.	ICT56	Theory of CNC Machines	Nirmal Kumar Mandal	06/07/2020	10/07/2020	1	Mechanical, Production, & Industrial	After attending the programme the participants will be able to <ul style="list-style-type: none"> • Explain CNC Technology. • State the constructional features of CNC Machines
4.	ICT57	Advance Programming in C	Rajeev Chatterjee	06/07/2020	10/07/2020	1	Faculty of all disciplines	After going through this program the participants will be able to: <ul style="list-style-type: none"> • demonstrate the various operation on single and multi –dimensional arrays and structures, • demonstrate programs related to functions and pointers, and • demonstrate programing skills on dynamic allocation of memory using linked list.
5.	ICT58	Introduction of Accreditation Mechanism - NBA Approach	Ranjan Dasgupta & Arpan Kumar Mondal	06/07/2020	10/07/2020	1	Faculty from all disciplines	This discussion type special awareness course will provide exposure to the faculty and technical staff members of Engineering college and polytechnics for participating in forthcoming NBA accreditation process. This is not a conventional STTP. Participants of the colleges who are keen to apply or already applied for NBA accreditation will be maximum benefitted. The course will include discussion on need and benefit of accreditation, role of different stakeholders, preparation for accreditation, Washington Accord, mechanism followed by NBA.
6.	ICT59	Theory, Operation and Experimentation on Sensors, Transducers & Actuators	Sagarika Pal & Subrata Chattopadhyay	06/07/2020	10/07/2020	1	Faculty of Electrical, Mechanical, Electronics & Instrumentation disciplines	After completing the course the participants will be able to <ul style="list-style-type: none"> • Differentiate sensors, transducers and actuators • Define & classify different sensors, transducers and actuators in industry • Experiment with different types of sensors and actuators • Explain the concept of Intrinsic safety instruments • Apply transducers and actuators in process Control Systems
7.	ICT60	Designing Teaching under Outcome Based Education	Urmila Kar	06/07/2020	10/07/2020	1	Faculty & Technicians of all disciplines	After attending the programme, participants will be able to: <ul style="list-style-type: none"> • analyze features of Outcome Based Education(OBE) • identify learning-teaching system for OBE • identify teaching skill components • select appropriate teaching strategies for OBE • select appropriate teaching techniques for OBE • prepare plan for specific instruction • illustrate instructional delivery as per plan

Sl. No.	Prog. Code	Programme Title	Programme Co-ordinator	Date: From	Date: To	Duration (Week)	Target Participant / Group	Programme Objectives
8.	ICT61	Leadership & Team Building in Academia	Habiba Hussain	13/07/2020	17/07/2020	1	Faculty of all disciplines	After attending this program, participants would be able to <ul style="list-style-type: none"> Identify leadership attributes Analyse different stages in team building Build learning team in the class
9.	ICT62	Engineering Capstone Project	Prasanta Sarkar	13/07/2020	17/07/2020	1	Faculty of Electrical, Instrumentation, Electronics & allied disciplines	After attending the programme, the participants will be able to <ul style="list-style-type: none"> Able to form Capstone Project Team Identify Capstone Project topic Prepare Capstone Project proposal Develop Capstone Project Assess Capstone Project
10.	ICT63	Pattern Recognition: Theory and Applications	Chandan Chakraborty	20/07/2020	24/07/2020	1	Faculty of Engineering, BCA, MCA disciplines	After completion of this course the participants will be able to <ul style="list-style-type: none"> Understand the overview of pattern recognition system with examples Explain feature space, feature selection and dimensionality reduction Demonstrate supervised pattern classification (Bayesian, SVM, FLDA etc.) methods and its applications in class room teaching / practicing Explain unsupervised pattern classification tools (Clustering) Design relevant projects for hands on experience towards problem solving
11.	ICT64	NBA Accreditation and SAR preparation	Rayapati Subbarao	20/07/2020	24/07/2020	1	Faculty of all disciplines	At the end of the programme, the participants will be to: <ul style="list-style-type: none"> Identify the Impact of NBA Accreditation Prepare Vision, Mission, Program Educational Objectives Prepare Outcomes and Program Outcomes Learn how to prepare SAR. Practice Criteria i to x
12.	ICT65	Induction Training	Sagarika Pal & Subrata Chattopadhyay	20/07/2020	24/07/2020	1	Faculty of all disciplines	After completing the course the participants will be able to <ul style="list-style-type: none"> Identify the roll of a teacher Identify Instructional Objectives Prepare Lesson Plan Design Instructional Media & Computer Assisted Instruction(CAI) Assess the learning performance of students
13.	ICT66	Laboratory Experimentation in Engineering Chemistry	Sailendra Nath Mandal	20/07/2020	24/07/2020	1	Faculty and Staff of all disciplines	After attending the programme the participants will be able to gain and develop <ul style="list-style-type: none"> knowledge of 'modern principles of laboratory experimentation' in engineering chemistry, skill of handling conventional and modern sophisticated equipment, preparation of laboratory instruction sheets, interpreting experimental results, providing laboratory instruction such as to develop in enquiring attitude among students, preparing related test reports, related to engineering chemistry, attitude of hands-on-working in the laboratory/field. (Plant Visit)
14.	ICT67	Essentials of Strategic Management	Sukanta Kumar Naskar	20/07/2020	24/07/2020	1	Faculty of all disciplines	After attending the programme the participants will be able to <ul style="list-style-type: none"> Explore nature and scope of strategic management Identify stages in strategic planning Appreciate the concept of time management with strategic management
15.	ICT68	Library Management	Uday Chand Kumar	20/07/2020	24/07/2020	1	Faculty and Teaching supporting staff all disciplines	After attending the programme the participants will be able to <ul style="list-style-type: none"> Describe the ecological system Understand the biodiversity Describe the different causes of air, water and soil pollution and effect of pollution Describe the solid waste management Analyse the Social issues and the environment Explain the Human population and Environment

Sl. No.	Prog. Code	Programme Title	Programme Co-ordinator	Date: From	Date: To	Duration (Week)	Target Participant / Group	Programme Objectives
16.	ICT69	Induction Training - Phase I	Urmila Kar	20/07/2020	24/07/2020	1	Faculty members and technicians from all technical institutes, Individual phases can also be attended	After attending the programme, participants will be able to: <ul style="list-style-type: none"> • Explain the quality issues in Technical Education and Role of Teachers • Illustrate the process involved in Curriculum Development, Implementation and Reforms • Decide learning outcomes of specific course • Identify teaching strategy, methods and skills • Plan instruction • Assess performance of learners
17.	ICT70	Fundamentals of Network Security	Indrajit Saha	27/07/2020	31/07/2020	1	CSE, IT, BCA, MCA ECE, EE, ME, CIVIL	After attending the program, the participants will be able to <ol style="list-style-type: none"> (1) describe the fundamentals of Network Security (2) demonstrate how to maintain the privacy of computer data (3) explain network security in classroom
18.	ICT71	Problem Solving with SCILAB	Kinsuk Giri	27/07/2020	31/07/2020	1	Faculty of all disciplines	On successful completion of the programme the participants will be able to <ul style="list-style-type: none"> • understand and explain the different aspects of SCILAB • apply SCILAB to solve for mathematical, statistical and optimization problems • use SCILAB for graphics and visualization
19.	ICT72	Fundamental and Applications of Nanomaterials	Subrata Mondal	27/07/2020	31/07/2020	1	Faculty of all disciplines	After attending this program, participants would be able to: <ul style="list-style-type: none"> • explore the concept of nanotechnology; • describe the fundamental of nanoscale materials' properties; • identify various carbon based nanomaterials; • describe applications of nanomaterials in various fields; • explain the nano toxicology and nano safety etc.
